COORDINATING COMMITTEE

COCOM DOC. 3775
November 17th, 1959EXCEPTION REQUEST BY THE GERMAN DELEGATION
ON THE DELIVERY OF TELECOMMUNICATION EQUIPMENT
TO POLAND.

4403005

The German Delegation have the honour to submit the following request:

On the Posen fair a German firm exhibited a radio relay communication equipment and a carrier frequency telephone installation. They were supposed to be returned at the end of the fair.

Since the Polish Post Administration is very much interested in promoting and expanding their post service system they have asked to borrow this equipment for the time being with the intention to take it over eventually. The installations are supposed to be tested between Warsaw and Lodz and would certainly help to improve the communication system between the West and Poland as was confirmed by the German Ministry for Post and Communication.

The German Delegation submitted the following details for further information:

The equipment consists of a 12 channel carrier frequency telephone equipment, Type VZ, 12 A
(2 Terminal stations and 1 amplifier station) \$ 21.143.-
Item. 1520,

and of a 120 channel relay equipment Type FM 120/2200,
(2 Terminal stations), Item 1523 a, \$ 22.619.--

Frequency range 2060- 2300 m c/s, number of channels 120 of
4 k c/s bandwidth, range approximately 50 km.

Output power to the aerial system: 6 W/60 OHM unsymmetric.
12 carrier frequency channels on 2^{wire} system and carrier frequency
channels on 4 wire system: 12 with one unit,
24 with two units.

The installation would take place under the supervision of German engineers. They would also supervise the equipment as long as it is lend to the Polish Government, which guarantee that no diversion or reexport can take place.

Under these conditions the German authorities would like to grant the requested authorisation on a temporary basis. The German Delegation hope that no objections will be raised against this request, submitted within the framework of the special policy adopted towards Poland.
